

# Mood Kitchens

words / lily wong images / whirlpool layout / boon ting ting

**It's no surprise that the Whirlpool Art Gallery Hood took home the exclusive Red Dot Design Award 2013 Honourable Mention – this unique hood with its awesome features ingeniously transforms the kitchen into a personal art gallery.**

Whirlpool, the world's leading manufacturer and marketer of major home appliances, receives yet another significant recognition: the prestigious Red Dot Design Award 2013 honourable mention for the outstanding Art Gallery Hood Collection.

Designed to create a unique atmosphere in the every day kitchen, the Art Gallery Hood Collection brings a touch of something new to the heart of every home, revitalizing the kitchen's atmosphere to suit different mood and occasion. You can choose between six panels of different artwork to display the one that best represents you in any given moment, transforming the cooking area into a

personal art show. The panels are easily interchangeable, and can be bought and installed affordably, without technical support.

The Global Consumer Design team, the beating heart of Whirlpool creativity, were inspired by various users' suggestions to create the six works of art that characterize the Art Gallery Hood Collection. Extreme colour catches the eye in a play of mirrors and an infinite kaleidoscope, while monotone designs evoke the romantic shades of sunset and weave photographs from a distant past into wistful vintage patterns. **CHX**
